

Horizon Mine Reclamation C/007/020 PO 560 1800000000000269

Date: August 22, 2018 M T W Th F

Crew Names: Nelco, Steve and Dall

General description of work performed, equipment/material deliveries, etc:

Steve indicated that they plan to start bringing topsoil down to cover the areas that have already been graded. He though that NELCO would have more people and equipment available next week as they are wrapping up the Kenilworth project for AML.

The site was very foggy and wet from recent storms. Temperature was 54 degrees.

Problems/delays and proposed or actual resolution. DOGM action required? Yes No

Temp: 40 50 60 70 80 90 100 Comments:

Ground: dry wet muddy snow _____ " frozen

Inspector: David Staddock
